

Photo 17: Looking east from slope above nursery. Much increased tree and scrub growth across small gully.

Photo 17: Looking east from slope above nursery. Much increased tree and scrub growth on slope.

Photo 19: Looking south-east across southern corner of site. Much increased growth of broom and bramble.

Photo 20: Towards chimney from southern corner of hill. Increased vigour of heather and goldenrod, spread of patch of broom, scrub to rear taller.

Photo 21: Looking north-east along south-east of hill. Relatively little change.

Photo 22: Towards chimney from east-south-east. Continued vigour of heather, very slight spread of scrub.
